Fernando Cabo

Shiatsu provided to London Marathon runners

We were delighted to hear from CNHC registered Shiatsu practitioner Fernando Cabo who got in touch to let us know that he provided Shiatsu at this year's London marathon.

Fernando commented: *"I gave Shiatsu to runners after they finished the race. I also offered taster sessions to the massage therapists before the runners arrived. They wanted to know why my couch was lower than theirs, and when I explained that it was because I did Shiatsu, they said they didn't know anything about it and wanted to try."*

Fernando got involved after responding to an advert several years ago seeking massage therapists for the London marathon. He was accepted to provide Shiatsu and is now a regular volunteer at charity events such as marathons, half marathons and night pink ribbon walks.

Fernando commented: *"Giving shiatsu to runners is a wonderful experience. First it is a challenge because their muscles are very stiff, and some of the runners are in pain, after running the marathon so I aim to improve their condition at the time. It is a very rewarding experience to hear - and see - how much better they feel. Sometimes they come in limping and after the treatment, although they are not perfect, they can walk better. And I feel that since I am not running, what I do is a small contribution to the good work of that charity."*

CNHC Board updates policy on publication of panel decisions

At its April meeting the CNHC Board agreed to change its policy on publicising panel decisions. To date CNHC's policy has been to publish all outcomes of public hearings on its website for an indefinite period.

The new policy is that if there is any finding of impairment at a public hearing (in other words the registrant is found to be not fit to practise) CNHC will publish details of any sanctions imposed on the registrant. If the sanction is to remove the practitioner from the register, this will remain on the website indefinitely. If the sanction is temporary, the finding will remain on the website for the period of the sanction.

In those cases where there is no finding of impairment and no sanctions are imposed, these will only be published at the request of the registrant concerned, for a maximum period of three months.
